ANTAM LAUNCHES THE THIRD SERIES OF INDONESIAN BATIK GOLD PRODUCTS

Jakarta, October 27, 2022 - PT Aneka Tambang Tbk (ANTAM; IDX: ANTM; ASX: ATM), member of Mining Industry Indonesia (MIND ID) – the State-Owned Enterprise Holding of the Mining Industry Indonesia, announces that the Company, through the Precious Metals Processing and Refining Business Unit, launches its Indonesian Batik Gold Series III as jewelry and gold bars at the Sultan Hotel, Jakarta. The Indonesian Batik Gold Series III presented four batik motifs that represent the cultural heritage of the Indonesian archipelago as crafted on gold bars, namely *Batik Bokor Kencono*, *Batik Huk*, *Batik Srimanganti*, and *Batik Mahkota Siger*. Besides being packaged in gold bars, these four batik motifs are also present in gold batik jewelry as pendants.

ANTAM's Director of Business Development, Dolok R. Silaban, said:

“The launch of the Indonesian Batik Gold Series III proves ANTAM's consistency over the past eight years in promoting the heritage and culture of the Indonesian archipelago and responding to customers' requests to have exclusive jewelry products from ANTAM. This edition has four batik motifs crafted on gold bars and pendant jewelry products with elegant and innovative designs and only produced in limited quantities. The Indonesian Batik Gold Series III presence in this pendant is one of ANTAM's product innovations to strengthen the Company's gold market. We hope this product will become the best collection and choice of gold investment for Indonesian society.”

Indonesian Batik Gold Series III products began to be marketed in October, known as National Batik Month. The four Gold Batik Indonesia Series III motifs in pendant jewelry products are cast on 8 grams of gold with 91.7% or EK-22 purity. While on gold bars, the four batik motifs, namely *Batik Bokor Kencono*, *Batik Huk*, *Batik Srimanganti*, and *Batik Mahkota Siger*, are cast on 10 grams and 20 grams of gold with 999.9 purity.

Previously, through the Indonesian Batik Gold Series I and II, ANTAM also presented a series of jewelry in bezels. The bezel is a gold frame product with a particular motif that functions as a batik gold frame. Using the bezel, Indonesian Batik Gold Series I and Series II can be used as pendant jewelry. As a development of the bezel product in the previous series, pendant jewelry on the Indonesian Batik Emas Series III is expected to provide new choices for the gold collector. It will strengthen ANTAM's position in the domestic gold market, including gold jewelry.

During the Indonesian Batik Gold Series III launch, ANTAM will also provide a cashback voucher of IDR 100,000 to the first 300 buyers of the Indonesian Batik Gold Series III product. This cashback voucher can be used to buy other ANTAM gold products at ANTAM's Precious Metals Gold Boutique, spread across major cities in Indonesia.
