ANTAM RECEIVES SUBROTO AWARD IN 2022

Jakarta, October 5, 2022 - PT Aneka Tambang Tbk (ANTAM; IDX: ANTM; ASX: ATM), member of Mining Industry Indonesia (MIND ID) – the State-Owned Enterprise Holding of the Mining Industry, announce that the Company through the Gold Mining Business Unit received the Subroto Award of 2022 for the Innovative Mineral Community Development and Empowerment Program category in the Real Income and Employment Improvement Sector. The award was presented online by the Minister of Energy and Mineral Resources, Mr. Arifin Tasrif to ANTAM's Director of Business Development, Mr. Dolok Silaban.

ANTAM's Director of Business Development, Dolok Silaban said:

"ANTAM's contribution to the community empowerment program is not only as a partner providing capital, but also assistance and guidance to farmer groups for business development, human resource development, product management operations, infrastructure and market access. ANTAM continues to carry out operational activities that have an impact directly on the economic growth of the communities around the Company's area, in line with our commitment to conducting a sustainable business."

ANTAM's best Community Development and Empowerment Program implemented by the Gold Mining Business Unit is titled Gunung Dahu Integrated Farming in Bantar Karet Village, Nanggung District, Bogor Regency. This program was implemented due to the practice of Unlicensed Gold Mining in the Pongkor area which resulted in environmental damage, so ANTAM developed an innovative business incubation based on technology and local wisdom. In 2018 a closed house broiler farm group was formed which is integrated with the agricultural group by utilizing post-harvest chicken manure waste as agricultural fertilizer. Some of the business actors, there are former actors of Unlicensed Gold Mining who have realized the dangers of Unlicensed Gold Mining activities.

The Subroto Award, which has entered its fifth year, is the highest award given by the Ministry of Energy and Mineral Resources to stakeholders who have outstanding achievements in advancing the energy and mineral resources sector.

In addition in 2022, the Ministry of Energy and Mineral Resources also held the Dharma Karya Energy and Mineral Resources Award which was given as an appreciation to individuals or institutions/companies who were very instrumental in their thoughts, policies, decisions, actions, and development, as well as new discoveries in the energy and mineral resources sector in providing the significant impact on national development, especially in the energy and mineral resources sector.
